Date of production 01/01/2023

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

The sub-fund is a compartment of the fund, the latter being a Luxembourg Investment Fund (Fonds Commun de Placement), qualifying as a specialised investment fund ("SIF") under the Law of 13 February 2007.

Term

This sub-fund has no maturity date. However, the sub-fund could be terminated under the conditions led down in the Prospectus and in the Articles of incorporation of CIGOGNE FUND.

Objectives

The investment objective of CIGOGNE FUND - M&A Arbitrage, is to realize consistently high risk-adjusted appreciation in the value of its assets.

The sub-fund will seek to achieve its investment objective by primarily using strategies based on merger arbitrage and even driven arbitrage. The investments cover all sectors and all types of market capitalization, subject to the specifications on financial instruments used. Strategies may be implemented on the following geographical areas: Europe, North America, and Asia and / or Australia. The sub-fund is allowed incidentally investments in other geographical areas (such as non-OECD countries).

In merger arbitrage, the investment strategy is to lock in or otherwise trade in the spread by purchasing (selling) securities of the target or subject of an announced merger, acquisition or contest for control and shorting (buying) the deal consideration. Specifically, in case of tender offers, the investment strategy is built up to lock in the spread by purchasing securities subject to a cash or a mixed tender offer and tendering such securities while hedging the resulting long position until the term of the offer.

The sub-fund may invest in equity securities, warrants, bonds and other fixed income securities. For the purpose of efficient portfolio management and for currency hedging in the context of the management of its assets and liabilities, the sub-fund may engage, with collateral if necessary, in options, futures, swaps, securities lending or borrowing and other derivative instruments or techniques, traded on an exchange or over-the-counter.

The debt securities in which the sub-fund may invest include mainly private

issuers but may include any type of issuer without any minimum rating requirement.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is intended for well-informed and professional investors.

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual report and the latest prices of units may be obtained free of charge from the alternative investment fund manager or on www.cigogne-management.com. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The alternative investment fund manager may inform you about other languages in which these documents are available.

This sub-fund was launched in 2004 and this unit class in 2004.

The currency of the unit class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator:

- Derivatives risk,
- Counterparty risk,
- Other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years Example investment: 10,000 EUR		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,550 EUR	7,040 EUR
	Average return each year	-34.5 %	-11.1 %
Unfavourable	What you might get back after costs	9,050 EUR	8,550 EUR
	Average return each year	-9.6 %	-5.1 %
Moderate	What you might get back after costs	10,420 EUR	10,680 EUR
	Average return each year	4.2 %	2.2 %
Favourable	What you might get back after costs	11,290 EUR	12,270 EUR
	Average return each year	12.9 %	7.0 %

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between June 2017 and June 2020.

Moderate scenario: This type of scenario occurred for an investment between July 2019 and July 2022.

Favourable scenario: This type of scenario occurred for an investment between October 2014 and October 2017.

What happens if Cigogne Management S.A. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer. To protect you, the assets of the sub-fund are held in safekeeping by the Depositary. In the event of the insolvency of the Manufacturer, the sub-fund's assets in the safekeeping of the Depositary will not be affected, the investments will be liquidated and the proceeds will be distributed to the investors. In this case you could suffer a financial loss and, in the worst case, you could lose your entire investment. You are not covered by any national compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	230 EUR	737 EUR
Annual cost impact (*)	2.3 %	2.3 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 2.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	180 EUR
Transaction costs	0.5% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	50 EUR
Incidental costs taken under specific conditions		
Performance fees	20 % of the performance of the Net Asset Value per share of the relevant class (measured against the High Water Mark) over the Euro Short Term Rate (€STR). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The recommended holding period is set to 3 years based on the Objectives of the sub-fund and the strategies implemented as described in the Prospectus. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on a monthly basis.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to contact@cigogne-management.com, by letter to 18 Boulevard Royal - L-2449 Luxembourg, by phone calling the number (+352) 27 46-1.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.cigogne-management.com.
